LANGUAGE LABORATORY

A Language laboratory is arranged to make foreign language learning more effective. Its Emphasis is on speaking and listening, the language lab is set in computer rooms. The Language lab includes activities like Listen, Speak, Read and Write (LSRW) which is an effective methodology for learning languages. Effective group discussions and interactions are provided for easier and effortless learning of languages.

The English Language is a window to the world. The significant role of its spoken, written usage at formal and instructional level in any academic and professional front is acknowledged across the world.

A range of language functions of particular relevance to Engineering and Technology is exemplified in the English Language Lab. This new approach is task based and skill-oriented. All the four skills involved in learning a language namely reading, listening, speaking and writing are developed through various tasks. By working through the activities, they try to prove their effectiveness in using English as the means for development and empowerment in their chosen profession.

ENGLISH LANGUAGE LAB ACTIVITIES

- Phonetic script is taught from the basic vowels and consonants.
- Pronunciation of vowels and consonants is taught through various software packages.
- British English Accent: Cassettes of British Pronunciation are provided for listening and understanding.
- Script of American phoneme is also given.
- Student's own recording along with the listening session is advised.
- Cassettes of conversation by Native speakers are provided.
- Students are made to record their own conversation's on the pattern of the native speakers.
- Lingua phone is also provided for this purpose.
- Students are advised to watch English news, BBC, CNN and other English programs.
